	Notes and comments(*8)												

(*1)   Member roles must be specific and professional

(*2)   Got attention, eye contact, loud enough, clear, spoke extemporaneously, honored time limit, time used effectively; video on the web?

(*3)   Application and understanding of math & science concepts

(*4)   Check if there were any similar robotics projects before; recommended to do Internet search; also ask the team

(*5)   Is it useful for us practically?

(*6)   Ask the team to explain some parts of their codes.

(*7)   Check if robots are sturdy & durable, and well-engineered. Performed without breaking.

(*8)   Take notes to help determine your final selections and rankings (number of robots, sensors used, etc); Also write down strength and suggestions to improve.

(*9)   Enter Rank after scoring all teams. The team with the highest score = rank #1
