

Reordering Robofest Trophies

Winning teams may order trophies directly through our vendor as long as they receive permission from us since our trophies have our Lawrence Tech on them. We are not sure what they will charge individuals, or how much their shipping is, but this can be arranged directly between the vendor and the team.

The best procedure would be for teams to contact Robofest Associate Coordinator Teri Dubois first (tdubois@ltu.edu) with the following information:

- Team ID
- Competition Site
- Specific competition category
- What place they finished
- How many trophies they want

We can verify and approve the teams, and send the confirmation to our vendor. Teams will receive information on how to contact our vendor this year. From this point, teams can arrange for payment and shipment directly through the vendor.
